

It is our practice policy to give patients full information about the cost of their orthodontic work before any treatment is undertaken.

Unfortunately, we are unable to provide specific orthodontic treatment fees before a patient has received a private treatment consultation, as fees are individually assessed and dependent upon the complexity of the treatment required. Our fees are tailored to individual patient requirements, therefore, a written estimate and treatment plan will be provided during a private consultation.

We offer patients a range of payment options, depending on their needs:

- Cash
- Credit/Debit Card
- Finance – Administered through Medenta Finance, please discuss this option with our practice receptionist.

#### **Private Consultations**

The cost of a private consultation is £98 and includes a full diagnosis and any necessary radiographs. A deposit of £40 is requested at the time of booking the appointment, the remaining amount is payable when attending the appointment.

#### **Product Sales**

All product sales are paid at the time of purchase

#### **Treatment**

Patients are required to pay for treatment prior to treatment commencing by the following methods; Cash, Credit Card or Finance.
